

**Sacred Heart College**  
AUCKLAND

## **SHC Health Centre**

### **Registered Nurse**

A position is now available in our Health Centre, for a permanent part-time nurse, providing nursing care for both our day & boarding students. The role is varied, with a mixture of injury management, medical assessment and symptom management skills required, along with opportunities to build meaningful relationships with the students and offer guidance and support across diverse health topics.

The part time role is shared with the Lead Nurse, across Monday to Friday and will be 2-3 days work per week.

Previous school nursing experience would be highly valued, however the position would equally suit a nurse with primary care, general practice or urgent care experience. Experience of working within youth health care is advantageous and you will enjoy working autonomously, in what can be a busy environment.

You will require current registration as a NZ registered nurse, a current First Aid certificate and a clean full drivers licence.

Please email a letter of application and a copy of your CV to: Tracy Norton, Lead Nurse on [tnorton@sacredheart.school.nz](mailto:tnorton@sacredheart.school.nz)
